REPUBLICAN PARTY BLOCKS TRUMP CANDIDATES

By Colonel Robert F. Cunningham

ALBUQUERQUE -- Mr. Trump is right on the money, again. The fix is in here in New Mexico. The State Republican Party has **BLOCKED** some Party Officers from attending the NM State Party Convention scheduled Saturday, 21 May 2016. Many longtime, even lifelong Republican Party members, perpetually active at national, state and local levels have been deliberately excluded from attending.

State Party Officers, rule makers and self-appointed power brokers have conspired and colluded to close the Convention to "even suspected Donald Trump supporters" in order to effect their own Marxist agenda, rather than contend with the will of the majority or anyone else who might not support their efforts to dictate and control the outcome for the entire state.

Whether this situation was planned and executed by an exclusive clique who directs the conventions or whether it's the result of a grand conspiracy that goes all the way to the Governor's Office has yet to be uncovered. It is unclear exactly what said clique of conspirators intends to accomplish with this exclusionary lockout. It certainly cannot be in the best interests of New Mexico or the upcoming Presidential Election.

One thing is for certain. Those on the list of the deliberately excluded are now justifiably furious. Disinfecting the State Party will be with a vengeance. Those who foolishly think they can manipulate New Mexico's Republican voters will find themselves tossed out like moldy leftovers, long forgotten in the back bottom of the community fridge.

I for one am personally going to see to it. Those who suppose I can't or won't should take the time to reference former U.S. House Representative Heather Wilson. It took six years but she is gone and gone for good.

Like the current crop of corruptors, good riddance.
